WATER TANK

2 LAYER TANK

3 LAYER TANK

4 LAYER TANK

Omtex Group is an industrial powerhouse based in Ahmedabad, Gujarat, invested in the fields of Textiles and Plastics. We ventured into Plastics in the year 1988 with Omtex (India) Pvt Ltd, popularly recognized by our premier product brand identity – OMTEx.

The traditional water tank is our core product, where we boast an extensive range and 30 years of proven quality and service in the Gujarat market. This tank is also known as Cylindrical Vertical Tank or Overhead Tank.

Special Features

- Single piece moulded article.
- Extremely strong and durable.
- Primarily for outdoor use and overhead/rooftop storage.
- UV stabilized.
- Food grade material.
- Omtex Water Tanks come with the company logo embossed onto the product during the moulding process so you can verify the authenticity of the product.
- All of our tanks also have the date of manufacture and capacity embossed onto them and the warranty card is attached to every tank.

LOFT TANK

Loft Tanks are rectangular tanks specially designed for better utilization in smaller spaces and for indoor use. These tanks are engineered with a special ribbed design to allow them to maintain their structural integrity. They are only made from the highest grade of raw materials available.

Range - 100 Litres to 1000 Litres
Available in 2 colours Natural White and Black

Special Features

- Single piece moulded article.
- Indoor use recommended.
- Ideal for use with height restriction.
- Single layer, Translucent in nature to allow visibility of water level from outside.
- Wide range of variations in dimensions to suit a spectrum of spatial constraints.
